

Dear youth leader / children's worker.

Enclosed is a booking form for the **MOSAIC '10** Conference being held on March 20th 2010. This conference is in its fourth year and brought together by MANYOG, an ecumenical group that meets to discuss and respond to training and resource needs from across the spectrum of Christian children's and youth ministries.

The **MOSAIC '10** Conference includes 18 workshop and seminar options covering a variety of practical topics delivered by people with a wealth of experience and knowledge. Combine this with the teaching facilities at Nazarene Theological College, our venue for the conference, and we are sure to have a relevant and beneficial day that will enhance the ministry of youth and children's workers alike from across the North West of England and beyond. **MOSAIC '10** does not wish for anyone to be unable to benefit from the conference and so all this is provided for a mere £12 per person. Drinks will be available throughout the day as will a buffet lunch.

Numbers for some of the workshops and seminars is limited and while we will endeavour to meet everyone's personal preferences we have been over subscribed in previous years and so would advise as early booking as possible for your team members to avoid disappointment. Advance booking is essential and the cost rises to £15 but without lunch for anyone who books later than 4 days before the conference.

For further information on the workshops and seminars available, their deliverers, further booking forms, as well as directions to and from the venue, please visit

www.manyogevents.co.uk

After the conference there will also be opportunity for feedback, through questionnaire, to ensure that we can continually adapt and develop to the needs of those **MOSAIC** seeks to serve - local children's workers and youth workers from the Christian community. This years conference has been fine tuned according to the questionnaire results after **MOSAIC 08 & 09**.

We look forward to receiving your bookings and to seeing you at the **MOSAIC '10 Conference**.

Yours sincerely

The MANYOG team
